

EXTREME PERFECTION. RE-INTRODUCE YOURSELF TO IT.

THE ONE from Ebonite is back – ready to lead the way in performance again, on the lane and in the pro shop. With the advanced GB-10.7 coverstock, the veneer shell absorbs oil at a phenomenal rate. This translates into more direct contact with the lane surface and a higher degree of friction as the ball exits the oil pattern. Resulting in a quick turn directly to the pocket. Now you can put a high performance product in the shop that you know will perform well. Because with THE ONE, it's like sticking a guarantee on the shelf. Try it. We'll think you'll soon find that this is the one ball for you.

THE ONE:

STYLE NUMBER:	029744-78510

BACK FOR AN ENCORE.

EBONITE
BOWL TO WIN™

THE ONE from Ebonite, it's back and it's still pushing entry angles to the extreme. Designed for medium to heavy oil patterns, the breakthrough GB-10.7 coverstock absorbs oil like a sponge, giving you more direct contact with the lane surface. Which means as you exit the oil pattern, the cut to the pocket is razor sharp. This is THE ONE. This is perfection.
